DATA AVAILABILITY

- Data uses a monthly sample data set of **offered/asked listing** rent value and sales price data. Data is obtained mainly from real estate agents, newspapers, magazines, internet web sites and asset management companies and then processed and cleaned-up carefully each month.

REIDIN.com's proprietary platforms include vast searchable and customised databases of qualified listings, properties, transactions, news, analysis, malls, indices, indicators, projects and companies.

REIDIN.com also offers intelligent analytical tools designed to save time and money - a range of charting functions, price sensitive heat maps, comparative analysis of market indices, automated valuation tools.

REIDIN.com Vision

To be the primary source of real estate intelligence for global emerging markets
